in all public announcements relating to your race.

Be It Officially Noted That

Based on examination of data provided by the above named measurer, the course described above and in the map attached is hereby certified as reasonably accurate in measurement according to the standards adopted by the Road Running Technical Council. If any changes are made to the course, this certification becomes void, and the course must then be recertified.

Verification of Course --- In the event a National Open Record is set on the course, or at the discretion of USA Track & Field, a verification measurement may be required to be performed by a member of the Road Running Technical Council. If such a remeasurement shows the course to be short, then all pending records will be rejected and the course certification will be cancelled.

This certification expires on December 31 of the year: **2032**

Through: 12/31/2032

NOTE: For purposes of this course, the rebar sections buried with top about 1/2" below ground level are the "permanent objects." Other distances shown get user within metal detector range.

6" piece of 5/8" rebar magnetized for easy location with a 5/32" hole drilled for nails buried in trail and to side of the trail

plan view of buried 5/8" rebar
Use metal detector or **Detector** app to find rebar marking endpoints

Place 1/8" nail in hole in top of rebar and stretch large bright string or yarn between nails. Ride target is 25" from off trail rebar.
